ISMA LETTER

From the Membership and Outreach Committee

At the Grand Lodge Convention in Chicago this past February, there was much discussion about where ISMA is going as an organization. As in years past, there was discussion of attracting new members, how to offer value for membership, ways to connect with and keep younger members through interaction with social media and other online communication methods, and how to sustain our health and well being as a fraternity. I found myself compelled to be involved in this process on the ground level and volunteered myself to chair the new committee—Membership and Outreach. **Richard Gray** immediately stood up as my right hand and co-chair in this venture, and it has already been a wild ride.

During the rest of the winter and spring, Richard, myself and any other available committee members met in person, through Facebook video conference and via phone to begin defining a direction for our committee. We have much in store for members in the upcoming months, and wanted to get a few things off the ground as soon as possible so that there is real data to be presented and analyzed at the Grand Lodge in Alpena. Toward that goal, a survey has been created to allow members to provide some items of demographic information as well as comment on their overall satisfaction with ISMA and suggest what we can improve upon in the future. Please go to the link below to complete your survey:

SurveyMonkey.com/r/ISMA2016

As a thank-you, each respondent will get a coupon code to use at our newly-created ISMA store where (nearly) all your heart's desires can be branded with the ISMA logo. Keep in mind that we would like to have as many surveys completed as possible by January 1, 2017, so that the committee can crunch all this data together and bring you, the members, some insight that will help to guide us along the path. Thank you very much—and happy clicking and typing!!!

Yours in humble service,
Rebecca Hancock (PGP), Chair
Richard Gray (Co-Chair)

and Outreach Committee

Based in Ottawa, the merged entity will continue to be called the Chamber of Marine Commerce. **Wayne Smith**, chairman of CMC, said, "Both associations recognize that we have many shared goals and issues and that combining our resources will make us a much stronger advocate for the future growth of our industry."

The Chamber represents a broad spectrum of marine shipping stakeholders. The merger will help ensure that the Great Lakes-Seaway System remains a cost-effective, competitive way to transport goods both within North America and to overseas destinations.
